

PABLO MARTIN

I envy those of you witnessing the Purely Original works of Pablo Martin. There must be a powerful impact in the physical realm Pablo's art resides in—although his content manifests far beyond and deeply from within.

My first encounter with Pablo's work was through Instagram...it was clear that here is an artist who has discovered The Secret—Allow Vision. Follow where Vision leads—your hands—head—heart. Then, there is only one result—New Perception.

As you look from the Never-Seen-Before portraits of the full scale of human dilemmas and potential, awe ignites at Who could create so much Truth. Simplified. Complex. Humorous. Beguiling. Otherworldly. Earthy. Mystical. But always compelling in its unforeseen changes.

Pablo Martin is a Master of Dare. Daring more than clever. Daring to search inside where darkness dwells—dare to pronounce the depth of that region. And then, resurface without compromise. Daring. Willing to express the completeness of such spectacle—reasoned and committed. Daring. Comprehending the need to expose what hides inside the interior of the Soul's battle for The Light.

As an artist I am always awed and grateful to discover recent and past works of Pablo's. His talent inspires. His message informs. His visionary approach—Generous: Respectful of generations and traditions of great art—Alive through his enormous range.
